## CASHES

It is the objective of management to increase every employee's safety awareness and to establish efficient work habit. Hence management and Employee are devoted to the establishment of sound policies and procedures for the realization of the above objective.

Safety policy and procedure on any one project cannot be administered, implemented, monitored and enforced by anyone individual. The total objective of a safe; Accident free work environment can only be accomplished by a dedicated and concerted effort by all.

Each employee must understand his or her value to the company. The monetary, physical and emotional costs of accident, the objective of safety policy and procedure, the laws that applies to these policies and what their individual role is in implementing, monitoring and compliance with the established safety goals. However, in all matters of policy implementation, determination, enforcement and Discipline it shall be the sole and final decision of the safety manager and his line objectives.

This is achievable through

- Commitment
- Continual Improvement
- Safety Priority
- Hazard Analysis and Assessment
- Risk Assessment
- Training
- Prevention of Pollution □ Waste Management
- Resource Conservation
- Environmental Management Plans for Contracts
- Environmental Monitoring
- Compliance to relevant Legislation and regulations
- Social Awareness
- Living Resources
- Communication of Policies to all relevant parties

## Training

To achieve a high level of professionalism all employees undergo a comprehensive training program which is the responsibility of the Safety Officer. This ensures that all employees remain competent.

Areas where training is most important are as follows:-

- Job Training
- HSE Training
- Emergency Response Training
- Familiarization Training
- Hazard Recognition Training
- Risk Assessment Training
- Waste Management Training
- Community Awareness Training
- Environmental Awareness Training
- Site Familiarization Training
- Refresher Training
